### TOOL OF THE MONTH: THERMOREGULATOR

Equine Guelph has partnered with internationally renowned blanket manufacturer, Bucas of Ireland, and is pleased to announce the launch of the ThermoRegulator Healthcare Tool'. The new interactive online tool explores thermoregulation in all seasons to help horse owners avoid over-heating and dehydration along with a variety of sicknesses caused resulting from chilling and other preventable health concerns.

Take 10 minutes to learn more about thermoregulation and to decide if your horse is a candidate to be covered by a blanket – go to the ThermoRegulator Healthcare Tool. [Read full story...](#)

## ZOETIS AWARDS FUNDS FOR RESEARCH ON EHV-1

EHV-1 can cause a variety of diseases in horses, from simple runny nose and fevers, to abortion or even neurologic disease and death. A project with Drs. Brandon Lillie, Pathobiology, and Luis Arroyo, Clinical Studies, will assess the prevalence of EHV-1 in Ontario and study the abortive effect of the virus.

The goal is to better understand how this virus exists in the horse population, what factors contribute to the virus causing disease, and ultimately attempt to determine novel approaches to maximize the efficacy of current vaccines and minimize the impact of EHV on the health of horses.
