

UNCOVER THE HEALTH OF YOUR SOIL

Do you grow grains or oilseeds in Peel, Halton or Hamilton? Find out if you qualify for FREE soil health sampling! Open to farms of all management practices on priority soils shown below.

WHAT'S IN IT FOR YOU?

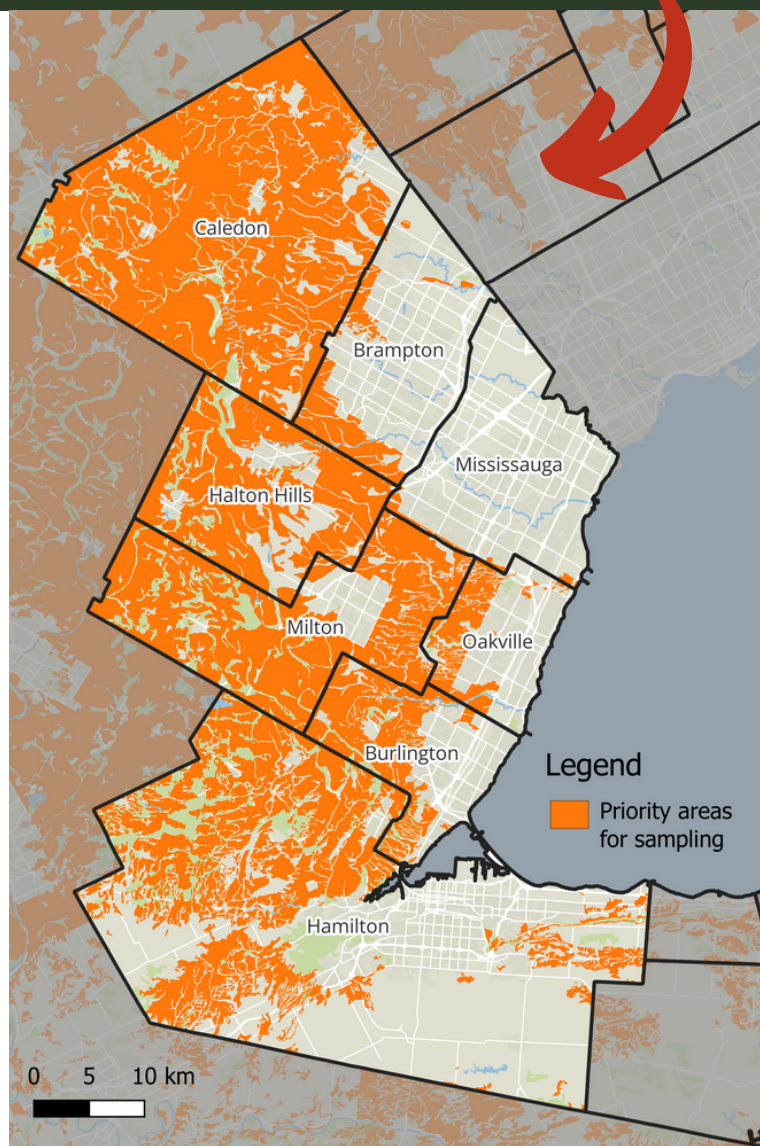

- Comprehensive soil health report with locally relevant interpretations.
- Key measurements including aggregate stability, respiration, soil organic carbon and more.
- One-on-one support to connect you with other funding opportunities and resources.
- Contribute to an innovative project that is advancing soil health assessment in Ontario.

WHAT'S INVOLVED?

- A 10-min call to gather site and cropping practices.
- Field access to collect samples in June-July 2023.
- A 30-min discussion in late summer to collect soil management data.

Sampling will be provided to farms on a first-come, first-served basis, so don't wait!
