FOLLOWING THE HOOFPRIENTS OF HORSE HISTORY

As long as humans and horses have worked together, people have realized the need to refine and adapt their animal husbandry techniques. But preparing for the future often means reviewing and appreciating the past. Equine Guelph, University of Guelph, encourages students to examine the evolutionary history of horses, their domestication, and the impact on the human-horse relationship of today with its online course, The Equine Industry.

EquiMania!

To this day, the Governor General's Horse Guards, which is Canada's senior militia regiment, maintain the same cavalry skills and traditions that were established in the early 1800's. The role of horses in the military is one of the topics that will be discussed in The Equine Industry course.
